

You will need:

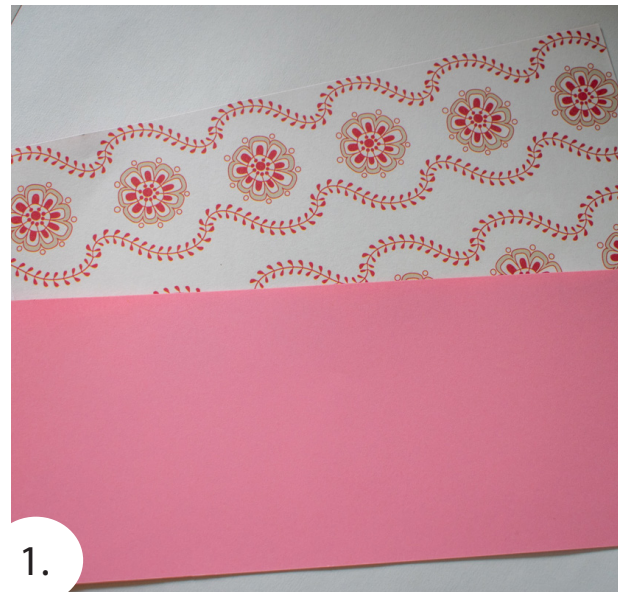

- scrap paper
- ruler
- pencil
- scissors
- ribbon (optional)

Instructions:

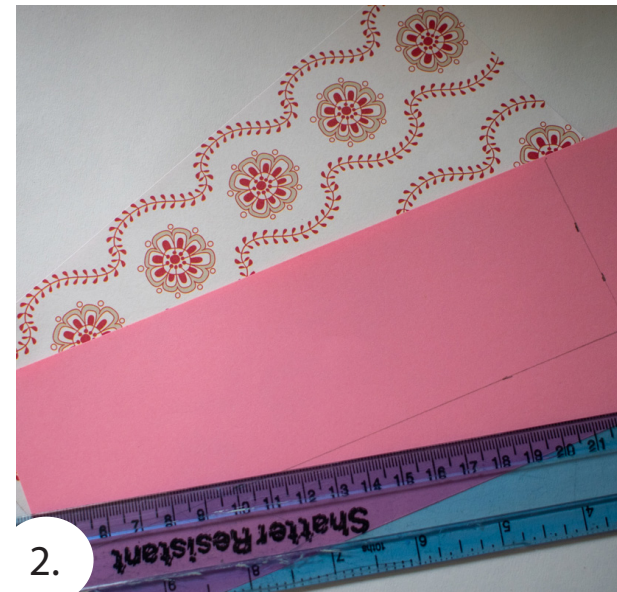

1. Choose some contrasting papers
2. Measure out 6cm x18cm (1:3 ratio)
3. Cut out and fold in half
4. Draw a circle across the open end (we used a glass to help create the shape)
5. Cut 3 slits from the folded edge just over 6cm long and 2cm apart
6. To begin weaving : push the first strip **A** (pink paper in our diagram) in **between** the first strip of the other (flower) paper **B**
7. Then feed the middle strip **C** of the flower paper **between** the first strip **D** of the pink paper. Complete that row by pushing the pink paper **between** the last strip of the flower paper **E**
8. Alternate each row (between then around; between then around) and so on until complete
9. Finish your heart with ribbon or a paper strip to hang it up.

Other ideas and tips:

- Try different colour combinations
- Use old wrapping paper
- Make different sizes or cut more strips to start with
